## Comment for planning application WSCC/011/21

Type of Comment	Objection
Comments	Just the thought of this monstrosity is enough to make my blood boil, we are blessed to live in a beautiful area and as planners I can't see how you deem this to be acceptable at any level. We must work on the circular economy model and smaller community based recycling initiatives can tackle the issues better. You just need to think more creatively and to push the current operators who can do so much more. Please reconsider this will damage the local environment and will be a blot on the landscape!
