| Comments           | Absolutely the wrong area for this incinerator as this area is classed as a quiet country area with many many homes with assorted people from the elderly down to young babies. The amount of traffic will be over powering and will without any doubt cause many a road traffic accident and loss of life with all the lorries every day heading this way. Not to mention the pollution that will be caused by this incinerator for many years to come. I object to having this monstrosity in our beautiful countryside thus creating many more residents suffering ill health due to this being erected Please please consider this application and refuse permission |
