Comment for planning application wscc/off/21	
Application number	WSCC/011/21
Name	Christine Davis
Address	FLAT 33, MARTLETS COURT, QUEEN STREET, QUEEN STREET, ARUNDEL, BN18 9NZ
Type of Comment	Objection
Comments	Visual impact will seriously affect the South Downs National Park. There is no local need for an incinerator of this enormous size. This incinerator would harm air quality causing local residents a high risk to their health . The local roads would not be able to cope with the increased traffic caused by the big lorries. Incinerators are one of the worst ways of generating energy because of their affect on climate change. There has been Insufficient monitoring for these huge incinerators. My husband and I have recently moved to Arundel for our retirement years and this has caused us a great deal of worry and stress for the reasons I have mentioned. Please take my comments into consideration when coming to a decision. My husband and I strongly object to this vast building being erected.
