Comn	nent for planning application WSCC/011/21
Application number	WSCC/011/21
Name	Tracy Barr
Address	7 Orchard Gardens Woodgate
Type of Comment	Objection
Comments	I object in the strongest possible terms to the horrifying proposal for waste incineration at Ford. We are in a climate crisis of monumental proportions and burning waste exacerbated the situation by air pollution and by trying to create a quick fix rather than tackling the heart of the situation which involves re education of the huge importance of recycling. It is simply not good enough for short term solutions to be implemented and thereby passion on the actual problem to our children and grandchildren. It is past time for local councils to attempt to avoid the fundamental issues of waste and recycling in view of the climate catastrophe. Quite apart from any other consideration, to build a structure taller than the spire of Chichester cathedral is to completely ignore the fact that the surrounding beautiful landscape will be lost forever. Many more lorries will be creating chaos on local roads that are just not sufficient for the sheer volume of traffic, not to mention the increased pollution. Council officers are not the masters of the people but the servants whose decisions must be answerable not only to local residents but also to future residents as well. I urge the council not to allow this monstrosity to go ahead.
