Comment for planning application WSCC/011/21	
Application number	WSCC/011/21
Name	Jim Butler
Address	WOODSIDE, 10, WOODSIDE, BOGNOR REGIS, PO22 0HZ
Type of Comment	Objection
Comments	This proposal is proposterous. Having this facility will permanently scar the landscape and contribute greatly to the climate crisis, which we, including the local councils, should be fighting instead of ignoring it. The fumes emitted from the incinerator will pollute the surrounding villages, potentially causing major health problems to both the local environment and those living in the vicinity. This will be even worse with the addition of the disastrous A27 and A29 bypass proposals. What makes this even worse is the plan to build houses nearby on Ford Airfield, as those new residents will be in serious danger of developing respiratory problems (along with everyone living in the nearby villages), and I know that I would certainly avoid bringing up my future family near something as harmful and damaging as what is proposed. Having a giant incinerator will greatly reduce the pleasantness of this area of the Arun District, while hardly benefitting the area. Please consider the impacts of this disastrous proposal and turn it down.
