Comment for planning application WSCC/011/21

Application number Name	WSCC/011/21 Nick Field
Address	TARRANT STREET, 44, TARRANT STREET, ARUNDEL, BN18 9DN
Type of Comment	Objection
Comments	The application is completely out of keeping with the nature of the area. The local roads are already often running at over capacity, and will not be suitable for the traffic generated if this is approved. The ARundel end of the Ford Road is already reduced to a single Lane due to on street parking - a succession of heavy goods vehicles to and from this proposed site would cause even more severe congestion. All emissions would blow over the town of Arundel due to the prevailing south westerly winds. A major housing project has been approved adjacent to the proposed site - who would buy these houses right next to a waste disposal plant? This is an area of outstanding natural beauty on the edge of the South Downs National Park - it is no place for such a monstrosity!
