Comments	<input type="text" value="I strongly object to the plans for an incinerator in Ford. I agree we need these facilities in our country, but to put one at the heart of a growing community is insane. They should be in vast open areas. The health implications are unknown, the only two roads in and out of the site will not cope with the added traffic of heavy goods vehicles. They are full now and that's without the thousands of new homes that are proposed to be built. Please do not allow this development to ruin our health and landscape."/>
