Comment for planning application WSCC/011/21	
Application number	WSCC/011/21
Name	Gary Ash
Address	FITZALAN ROAD, 120, FITZALAN ROAD, ARUNDEL, BN18 9JY
Type of Comment	Objection
Comments	I OBJECT STRONGLY TO THIS APPLICATION ON MANY GROUNDS. I cannot see how heavy traffic will be able to drive from the Arundel end of Ford Road, as someone who is held up everyday by the sheer weight of traffic how does anybody believe that the road could cope with extra heavy traffic. As some body who walks my dog on a regular basis down the river from Arundel to Ford the blot on the horizon caused by this rubbish incinerator would be devastating. Who ever thought of the idea of this monstrosity obviously does not live in the area as the visual impact of the whole area will be damaged. The air quality will be badly damaged and it will be harmful to humans and the wonderful birdlife in the area. If more recycling is needed surely the rubbish dumps and recycling centres could be opened up to operate seven days a week instead of five. One minute there is a need for more affordable housing then the next the council wants to destroy that idea by building this monstrosity. To sum up as someone who lives by the lovely river I do not want to have my wonderful views destroyed by the building of a rubbish incinerator which is not needed or wanted.
