Comments	The proposed development will spoil the heretige of the historic area. Also the building is far too large for the location. The area needs more houseing, not more polution. The roads now can't cope with the amount of large lorries. The way too go is to do more recycling where possible. I will be quite close to the development, and my house price will be affected by the incinerator. Also the air quality at the moment is fairly good, if it goes ahead the air quality will go down considerably. The wildlife will be greatly affected by the 24 hour work and lighting. The fauna and flora will also be affected by the fallout of the chimneys.
