

Comment for planning application WSCC/011/21

Application number	WSCC/011/21
Name	Nicola Wilson
Address	2 BOUNDARY COTTAGES, FORD LANE, FORD LANE, ARUNDEL, BN18 0DF
Type of Comment	Objection
Comments	<p>Dear Sir/Madam. Please see my comments and objections to the application WSCC/011/21, which is a new submission superseding withdrawn application WSCC/036/20. This is an application that follows the approval granted for application WSCC/096/13/F. Further comments have been attached in a separate document. Most importantly, I would like to highlight a condition of the approval of application WSCC/096/13/F: "Prior to the gasification plant being brought into use, the applicant shall submit, to the County Planning Authority, verification that the gasification plant has achieved R1 status from the Environment Agency at Stage 1 (i.e. the design information stage) of the R1 application process. Reason: To confirm the status of the gasification plant in order to ensure that the proposal would move waste up the waste hierarchy in accordance with PPS10 and to ensure compliance with Policy W10 of the West Sussex Waste Local Plan." Support was given for application WSCC/096/13/F on the grounds that it was for a gasification plant which complies with the County Council's WLP.. http://www2.westsussex.gov.uk/ds/cttee/plng/plng220714ucmins.pdf The latest application changes this site to an incinerator. An incinerator cannot achieve R1 status. Without R1 status this site is considered by the environment agency to be in the same waste management tier as landfill. As such, the latest proposal for this site (WSCC/011/21) does not meet the requirements for West Sussex to move waste up the waste management hierarchy and does not comply with the WLP. R1 status for incinerators can be found below, this site has not even submitted an application: https://environment.data.gov.uk/portalstg/home/item.html?id=e9c43501928740f1a9cab6e5ca651dfb</p> <p>Best regards, Nicola Wilson</p>
