Comment for planning application WSCC/011/21	
Application number	WSCC/011/21
Name	Mr John Murphy
Address	FOUNDRY ROAD, 37, FOUNDRY ROAD, ARUNDEL, BN18 0HE
Type of Comment	Objection
Comments	The visual impact of this scheme on the surrounding area will be enormous, due to its size it will be visible for many miles in all directions affecting the South Downs National Park and Sites of Special Scientific Interests in particular. The proposed site for the incinerator is in the middle of an area with a steadily increasing population with major house building projects together with supporting infrastructure like schools and jobs going on all around the area. The project risks the health and wellbeing of the surrounding population in a variety of ways including pollution by dioxins, NOx and release of ultrafine particulate matter. Problems of Climate Change will also be greatly increased by a huge increase in these emissions. Already existing traffic problems will be massively increased by a huge increase in HGV movements throughout the area. This incinerator is not required, needed or wanted. West Sussex has ample existing incinerator capacity already and any addition is likely to have
