Comments	I wish to object to this planning application for the following reasons:- 1. I believe the erection of such a large and tall building will be visually detrimental to the surrounding area 2. It risks the deliverability of the proposal for a primary and secondary school and construction of 1500 planned new houses which has been supported at local level 3. Local roads and villages are already under pressure from increased traffic - the ability of these roads to cope with a dramatic increase in HGV movements is questionable 4. I believe incineration is has a detrimental effect on climate change 5. Surrounding households will have to tolerate deteriorating levels of air pollution emanating from this proposed development which can be harmful to human health and the surrounding environment
