Comment for planning application WSCC/011/21	
Application number	WSCC/011/21
Name	Colin Chambers
Address	WHITE COTTAGE, ARUNDEL, BN18 9QU
Type of Comment	Objection
Comments	I am objecting to the above application for primarily because of the potential harm to the environment the people living and working in the area, and the adverse effect there is likely to be on climate change, especially that which would be caused by the emissions from what is old technology. The incinerator could seriously damage air quality and the health of the local human and wildlife/plant population. I believe the area has sufficient incineration sites already and expanding recycling provision would be preferable to further incineration. I am worried that the local infrastructure, particularly the current roads, will not be able to cope with the seriously increased and much heavier traffic, and that locally supported development, such as Arun District Council's proposed new settlement with a primary and secondary school, would be adversely affected, perhaps not even being deliverable. I am also concerned about poor design, and inadequate monitoring, enforcement and transparency.
