## Comment for planning application WSCC/011/21

Application number	WSCC/011/21
Name	Terry Hortin
Address	APPLE TREE WALK, 18, APPLE TREE WALK, LITTLEHAMPTON, BN17 5QN
Type of Comment	Objection
Comments	I wish to object to this application for the following:- : The incineration process will produce noxious and hazardous emissions and is now considered one of THE DIRTIEST WAYS of creating energy. : The proximity to the existing residential housing and new developments in progress along with the other new proposed housing developments, which includes a school makes this proposal undesirable. :The chimneys and buildings are enormous and will be visible for miles including from Arundel, Littlehampton, the South Downs National Park and from as far Selsey. : The traffic impact in the area due to the large number of additional lorry movements (240-400) per day of which many of the vehicles will be from counties outside of West Sussex. : The only road access is completely unsuitable for not only the number of vehicles but the size of the lorries to be used. The intended access road is a narrow single carriageway and an unclassified road, which currently has safety hazards with the small amount of HGVs that travel on it, usually at speeds that are not suitable for the conditions. : The increase in traffic will create new safety and increase environmental hazards. This facility is not required to deal with the waste produced in West Sussex, so it is unnecessary, in the wrong place, is the wrong type of process for dealing with waste and is of no benefit to the local community.
