| Type of Comment | Objection |
| Comments | I object to this planning application. Living in Johnson Way, Ford, we are already subjected to almost daily noise of loud crashing, banging, clanging from Grundon Waste Management that completely ruins any peace and quiet and ambience - plus the noise of lorries going by. If this Application goes ahead there will be even more lorries on the nearby local roads causing congestion & hazards. Many children walk/cycle to the local schools - they will be put at risk. The visual impact of such a building is totally objectionable as is the threat to wildlife. There is much media attention attributed to necessitate the preservation of wildlife and this cannot be ignored. I object in the most strongest possible terms to a huge building being erected and all that it involves and the destruction and blight on the landscape. Ford/Yapton are villages - NOT an industrial estate. There is no local need for such an incinerator. |
