Comn	nent for planning application WSCC/011/21
Application number	WSCC/011/21
Name	Christina Goy-Smith
Address	ANCTON WAY, 3, ANCTON WAY, BOGNOR REGIS, PO22 6JN
Type of Comment	Objection
Comments	The proposed new facility poses a threat to the environment from pollution - expelled particulates, smells etc. It will also have a detrimental impact on this part of the South Downs and Clymping Coridor. Arun is enriched and financialy enhanced by its tourism industry and "bad" industrial views are off putting to our tourists. This facility would be clearly visible from Arundel, the river Arun and along the South coast road
