Comm	ient for planning application wscc/011/21
Application number	WSCC/011/21
Name	Freya Swaffer
Address	30 High St Arundel BN18 9AB
Type of Comment	Objection
Comments	This proposal is completely incompatible with the housing being developed nearby. The risks of toxic emissions will be highly damaging to our local environment and population. The weight and amount of the heavy vehicles used to transport the waste to the incinerator is just too much for our single Lane, local roads especially Ford Lane and A259. We should be looking to build greener power generators now. Horsham has a similar facility so we do not need another so near to that one. The enormity of the structure will be incongruous in the landscape in the Arun Valley and our coastline where there are no similar buildings of this height and scale. The added noise, traffic congestion and pollution are appalling by products of the facility. PLEASE, PLEASE do not grant this proposal permission.
