Comment for planning application WSCC/011/21	
Application number	WSCC/011/21
Name	Rose
Address	34 Squires Grove, Eastergate
Type of Comment	Objection
Comments	This strategy is firstly not a sustainable way of recycling used waste and definitely does not protect the vital and valuable South Downs National Park which is a popular tourist spot and home to wildlife. I'd like to expect that in 2021, strategies are looking to be more environmentally friendly to reduce the stress on the planet but clearly money is more of an incentive here than protecting vital resources. This incinerator is not needed, wanted or reflects the progressiveness I would like to see from my local council, please do not harm the local environment anymore and look to build a better West Sussex that protects the areas around them.
