Objection

We are in the process of buying a property in Yapton and horrified to discover this proposed incineration site which would be extremely close to our location. Not only is this a monstrous building but the intended site is wholly inappropriate for the surroundings. It is within a residential area with schools and other public amenities close by and the effects of the incinerator would be disastrous for air quality, wildlife and the road infrastructure. There is absolutely no need for this incinerator in the area given WSCC already has a more than adequate facility in Horsham. It would also detrimentally affect the creation of 1500 new homes which has received local support and is one of the key objectives for Arun District Council. It is nothing short of an eyesore for this beautiful area of natural beauty and will be visible from Arundel, Littlehampton and surrounds. The increase in HGV traffic will have a huge impact on the road infrastructure and will add to the pollution and congestion in the area as well as negatively affect the price of homes in the area. It is without doubt a completely ludicrous proposition given there are plenty of alternative and more appropriate sites to locate something of this nature (Selsey Bill for example).
