Comments	This is a proposed high story building, it is my belief that currently all planning applications are only allowed to be 2 stories high, to keep in line with the visual skyline and to insure uniform of the Village. If this is allowed to proceed it will set a precedent for further planning applications. This will impact the air quality in the surrounding areas - not only what the site towers are churning out but also the additional fumes from HGV's bring waste to the site. Local roads will not be able to cope with the additional traffic, they are already very damaged with pot holes.
