Comments	I totally object to this incinerator. It will pour out loads of pollution affecting the health of thousands and future generations. Damaging wildlife. It will be visible for miles scarring the beautiful West Sussex landscaper and the views to the sea from the National Park. The roads in this area are already highly congested and will be worse with large lorries bringing waste into the plant. Ford road can't cope with the amount of traffic as it is and the large lorries use roads which are not suitable. At a time when we should be going greener and causing less pollution to the planet this is a crazy development.
