Type of Comment	Objection
Comments	I live on the ford road and I'm already witnessing increased traffic volumes (esp. Heavy plant vehicles). What with more building planning on the horizon of new House builds past Ford Prison, New builds near Stewards rise fields (by allotments / opposite Brooklands / tortington) and new builds by Arundels old gas works by Leggits Horse fields, this incinerator is just another added problem both environmentally and will also increase traffic and is not good environmentally and for the Arun Valley setting.
