Type of Comment	Objection
Comments	This is an ill conceived proposal and totally unsuitable for the area at a time when we are attempting to improve the environment. This will cause considerable harm to the area in terms of pollution and is totally absurd in one of the most outstanding areas of historic importance in the south of England. The Council has a moral obligation to conserve not destruct and to review more modern systems of waste disposal linked to existing brown sites well away from Arundel. It is outrageous to contemplate a huge new housing estate alongside a huge polluting incinerator of vast size. The implications for traffic flow round this historic town is also unsustainable. Please please re consider
