Type of Comment	<input type="text" value="Objection"/>
Comments	<input type="text" value="Unsuitable type of industrial processing plant proximal to built up areas specifically due to nature of noxious residue emitted from elevated stacks with the prevailing westerly winds & the possible damage to the health of the local population. No evidence of studies being carried out for future health considerations in children in the Littlehampton or Brighton areas? Little or no detail about the scrubbing process in the stacks. There is no evidence of impact studies on the local traffic specifically Ford Road which is currently inadequate for the safety of pedestrians & motorists. Overall this application appears to be surreptitiously processed & the considerations of the local ratepayers & residents is being ignored. If allowed to go ahead the future health of the local children will be severely affected. The WSCC doesn't appear to represent the residents of this area in this matter?"/>
