Comment for planning application wSCC/U11/21	
Application number	WSCC/011/21
Name	Christian Fogden
Address	ST. MARYS MEADOW, 5, ST. MARYS MEADOW, ARUNDEL, BN18 0EE
Type of Comment	Objection
Comments	I completely object to the proposal of this monstrosity. We live in a stunningly beautiful area, surrounded by crucial green space and wildlife. As the world reaches a tipping point on climate change, it is inconceivable that such a plan is being put forward that will emit more CO2 than coal. This building will have a catastrophic effect on the landscape, the air we breathe, the wildlife that is prevalent in this area, and the mental health of thousands of local residents. With the new houses that are being constructed in Ford Lane now as well as the planned new settlement for a new primary and secondary school, with village centre and 1,500 more houses; we absolutely cannot continue to destroy more valuable green space. We must start to love the world we live in and use lower carbon energy alternatives rather than what is going to make those in charge the most money; at the detriment of the air us local residents breathe.
