| Comments | An Arun Valley Rubbish Incinerator would destroy the esthetic setting of the South Downs National Park. The vast 13 storey high building with its 2 towers should be rejected. It would allow for an additional 240 HGVs on the roads, particularly, Ford Road. It would also produce more CO2 than coal and oil generated electricity combined. This new proposed structure is inconsistent with and risks derailing the locally supported local referendum for a new primary and secondary school with a village centre and 1500 houses. NO! |
