Type of Comment	Objection
Comments	I object to the proposed plans to demolish exsisting building and the building of a new energy recovery facility. I am concerned about air pollution and the damage to the surround areas. At present we suffer from the fallout of the recycling plant at fod. I fear for the health of all local residents based on the levels of air quality, odour and dust. The health implications need to be a priority, peoples lives and quality of lives are a priority. There are a large number of schools in the location, our childrens health is not something to gamble with. The area has a diverse collection of wildlife and floral and needs to be protected.
