Dear Sir/Madam,

We are writing in connection with the planning application to build an incinerator in the Ford area near Arundel to which we strongly object for the following reasons:

- The height would have a devastating affect over the South Downs National Park and the area as a whole for ten miles or more.
- In the near vicinity there is planning for 1500 houses and a new school which is not compatible with an incinerator that will have a significant effect on the air quality.
- The plant will substantially increase HGV traffic.
- There are serious environmental issues to consider including harmful emissions that are generated and the effect on Climate Change.

Yours faithfully,

Mr & Mrs R. C. Knight, Reed Thatch, Wepham, Arundel. BN18 9RA
