Subject: Objections to Arun Valley Rubbish Incinerator
Date: 09 May 2021 19:58:13

To whom it may concern

The proposed Arun Valley Incinerator should not ever be built for the following reasons:

- This monstrosity destroys the Arun Valley landscape & is incompatible to the South Downs
- This area cannot cope with the additional 240 HGV movements particularly along Ford Road
- The incinerator greatly harms the Air & environmental quality
- AVRI is an eyesore!

Kindly note our objection. Thank you for your kind attention
