Subject: Arun Valley Rubbish Incinerator from Jennifer & Frank Bonfield
Date: 09 May 2021 23:07:08

We register our objection to the planning application WSCC/011/12, the Arun Valley Incinerator.

We object on several grounds: the visual impact of this Incinerator will be enormous. At 13 stories high with two 28 storey towers the Incinerator will be visible for many miles, blighting the view from the surrounding countryside, towns and villages.

Emissions from the burning of rubbish will be harmful to human health & the natural environment.

The local roads cannot cope with the size & weight of the HGV movements being proposed.

Incineration is one of the worst ways of generating energy because of its effect on climate change.

Incineration is a barrier to recycling.
