Comment for planning application WSCC/011/21	
Application number	WSCC/011/21
Name	Ralph Godfrey
Address	ATTERSEE, CHURCH LANE, CHURCH LANE, CHICHESTER, PO20 2BT
Type of Comment	Objection
Comments	This enormous building (40m) its 2 towers (85m) and the visible plume 50-100m on top of the towers will have a very negative effect on the whole area. It will be as visible as the Spinnaker tower set in the only undeveloped stretch of coastline between Bognor Regis and Brighton. I am also against it as it will affect the neighbourhood plan and district plan supported new community of 1500 dwellings, Primary school, Secondary school and associated facilities that has been in progress for 20 years. There is an existing permission on the site for a much smaller and more advanced technology gasification plant that would not have the impact that this proposal has. It would create the same number of jobs. Incineration is the most polluting form of energy generation that is in existence. It produces more than double the amount of CO2 than coal does to get one unit of electricity. Incineration also diverts plastics away from being recycled and breaks the circular economy, which is the only long-term solution to our waste.
