Collin	ient for planning application wsee, 011, 21
Application number	WSCC/011/21
Name	James Richardson
Address	BAY TREE HOUSE, GRIBBLE LANE, GRIBBLE LANE, CHICHESTER, PO20 2AE
Type of Comment	Objection
Comments	The application would impact the visual aspect along the south coast and from the south downs These views are protected and precious. In addition there will be increased traffic on already inadequate road systems. There are other alternative technologies which do not promote such visual impact such as bio digesters. In addition it has not been demonstrated adequately why we need additional capacity in West Sussex when planning for such waste management facilities has already been given which meets demand. The only reason must be for the importation of waste from elsewhere in the south east.
