Comment for planning application WSCC/011/21

Application number Name	WSCC/011/21 Timothy Worley
Address	The Old Byre Warningcamp Arundel
Type of Comment	Objection
Comments	My primary objection to this is that I do not believe this development can fail to add CO2 emissions to the atmosphere. Nothing new that does this should be given planning permission. My secondary objection is that one of the most perfect vistas in the UK will be irreparably damaged by such a tall building. I regularly take a boat from Littlehampton to Arundel and walk on the South Downs and the pleasure of the views is a national treasure and a huge benefit to public mental and physical health must be preserved. Thank you for the opportunity to comment and object.
