## Comment for planning application WSCC/011/21

Application number Name	WSCC/011/21 Anne Ward
Address	2 GOODACRES, ARUNDEL ROAD, ARUNDEL ROAD, ARUNDEL, BN18 0SF
Type of Comment	Objection
Comments	I object to this application as it will harm the air quality in this area through the emissions of dioxins and other harmful gases with a negative impact on human health and the natural environment. The impact on Ford Road which already struggles with the amount of traffic and the difficulty of vehicles having to pass parked vehicles. With larger lorries it will have a huge impact on local residents who have to park on the road and traffic will not flow freely. It is bad enough already. This will only make things worse. We already have a number of recycling incineration sites in West Sussex. There has not been a call for more. Many sites do not operate daily so is there a need for more? In the area we need more school places and facilities for families such as doctors surgeries. Who wants such a huge and ugly building in an area of outstanding natural beauty? Local residents do not. Is anybody proposing this building going to be affected by it? Are they residents in the area? I doubt if they are. Please rethink this proposal and decide that it is unnecessary, unwelcome and potentially dangerous to those who live in this area.
