Comn	nent for planning application WSCC/011/21
Application number	WSCC/011/21
Name	Nicola Hill
Address	KING STREET, 33, KING STREET, ARUNDEL, BN18 9BJ
Type of Comment	Objection
Comments	I strongly object to the proposed incinerator. The visual impact of this enormously high building will affect not only the South Downs National Park but the setting of the Arun Valley that includes sites of scientific interest. The size proposed means that it will be about the size of the Spinnaker Tower in Portsmouth and a blight on the landscape. I believe that West Sussex already has sufficient incineration sites to meet its needs and it simply acts as a barrier to recycling. Incineration on t his level must be one of the worst ways of generating energy because of its effect on climate change that is harmful to human health and the natural environment. It is estimated that there will be 240 HGV movements ie. a 77% increase along Ford Road. Local roads are unable to cope with the amount of traffic as it is, so the size and weight of these HGV lorries will only add to the problem as wel as blight the lives of the people living in the area This is a poorly thought through proposal and I would urge planners to go back to the drawing board.
