Application number Name	WSCC/011/21 John

Type of Comment	Objection
Comments	The visual impact of the building and towers will affect the south downs national park and massively impact the wildlife of the surrounding area. No local need for incinerators and they negatively impact recycling, West sussex already has enough incineration plants which meet the needs of the county. incineration is the most harmful means of generating energy, it destroys the climate, pollutes the area for miles around due to toxic emissions that are released into the air. local roads cannot cope with the increase of HGVs coming through the area. WE DO NOT WANT THIS PLANT BUILD!
