Comment for planning application WSCC/011/21

Application number	WSCC/011/21
Name	Penelope Cave
Address	FITZALAN ROAD, 112, FITZALAN ROAD, ARUNDEL, BN18 9JY
Type of Comment	Objection
Comments	I strongly object to the construction and operation of an incinerator in Ford Road on the following grounds:- 1) The visual impact of the 13 storey high building and two 28 storey towers will ruin the Arun Valley setting of Arundel and South Downs National Park. 2) The building of an incinerator is not compatible with the building of 1,500 houses, a new primary and secondary school and village centre. This is one of Arun District Council's key strategic sites for such a settlement and was supported by a local referendum. 3) Incineration produces more C02 than Coal and Oil generated electricity combined. The emissions can be harmful to both human health and the natural environment. It is not green energy. 4)240 additional HGV movements will be a 77% increase along Ford Road. The local roads will not be able to cope with increase size and weight. 5) West Sussex already has enough incineration sites with permission to meet its needs. Incineration will harm recycling. I trust the application to build such an incinerator will be turned down by West Sussex County Council in the interests of the community, the environment and the beauty of the Arun Valley.
