## Comment for planning application WSCC/011/21

Application number Name	WSCC/011/21 Graham Wells
Address	KENLEGH, 22, KENLEGH, BOGNOR REGIS, PO21 3TS
Type of Comment	Support
Comments	I fully support the proposed development of the incineration plant. It is the safest greenest way to dispose of our waste . Waste is on the increase, especially with the number of developments every district has under way or planned. Waste has to go somewhere and landfill is not the option, and within a short period of time there will be no landfills. There are none in West Sussex and we are already shipping our waste out of the county. This development will eliminate the need to export the county;s waste, we should be able to treat our own waste where it is produced, instead of waste travelling miles by road. The development site and the surrounding area's has been an industrial area since the 1950's and what would become of the area if the planning was denied. More Housing ? And again where would their waste go ? I see this as vital to the area to handle the ever increasing waste in West Sussex's which should stay in the county. Graham Wells
