Type of Comment	Objection
Comments	I strongly object to the proposed incinerator for the following reasons: - The scale of the proposed development in at odds with its location, particularly its proximity to the national park, residential areas and SSI sites Local road infrastructure is not scaled to cope with the additional HGV traffic the site will generate, and the additional NOx and CO2 pollution from this traffic will have a detrimental impact on local resistant's and wildlife I disagree with the use of incinerators and do not believe there is sufficient need in West Sussex to justify the proposed development and its associated impact and disruption.
