I strongly object to the proposed industrial incinarator at Ford because: 1) of the pollution from the emissions of various dangerous heavy metals particles so close to existing and proposed new housing development. 2) Yapton Lane, in Walberton, would be the preferred route for the HGVs to and from the A27, and the resultant increased traffic on such a country lane would cause subtantial noise and pollution to the Walberton Conservation area. 3) The visual impact of a 85m structure so close to the South Downs National Park would be unacceptable.
