Comments	There are many reasons why this project is so very wrong. It will destroy little the country side we still have; you will destroy my house and its value; my family's mental health; the road will be unbelievable busy,; more traffic; more horrible lorries down my road; it's bad enough to have the huge white lorries nearly pushing us off the road; pollution; road noise; devalue of our homes. The main thing is my mental health which you are probably saying who cares. The council is raping our countryside. The grey route for a stupid bypass, over building house in every single corner and now this. How much more can we take? How much more can I take? I had a dream a home, family and quality of life. Now with greedy people our world is changing for the worst not better. Please I beg you to stop this. Not in a place full of homes, life and wild life. Please don't do it. We in walberton, yapton, Barnham, Fontwell, Rustington, Littlehampton and many more places around this area don't want this.
