Comments	I strongly object to the proposed incinerator at Ford because of the huge volume of traffic which will be generated to and from this site. As I understand it such an incinator facility could attract waste disposal from up to a 50 miles radius. Yapton Lane which would be one of the preferred routes, would be overwhelmed with the increased HGV traffic not to mention the railway crossing which would result in huge traffic queues all the way back to the A27. This increased traffic would have a significant impact on Walberton which is a Conservation area with schools and care homes nearby.
