Type of Comment	Objection
Comments	There is no need in West Sussex for this facility as there is already sufficient capacity. It is very bad for the environment when we should be encouraging more recycling, not pollution. The noise and disruption from yet more HGV's on our already overloaded roads is totally unacceptable. The emissions from the incinerator are harmful to the environment and to the local residents. The visible impact from my home and for the surrounding area is a huge monstrosity that will be seen up to 10 miles away and detract from what is currently a pleasant outlook across open fields, which was very much why I bought my home.
