	The people of the local area have made it ubundantly clear that we do not want this at the proposed location. We have one of the least built up areas along the while south coast, most of which is protected for both its beauty and its wildlife. This will most certainly endanger this. You will put stress on tiny roads by bringing artic lorries full of waste from all around the country. We are already swamped by traffic due to the terrible train service run by Southern rail and ever increasing traffic at our train gates (of which this site sits between 2 of Sussex's worst. The roads can not handle this influx. The toxic fumes you will pump into our air dangerously close to 2 primary schools and many local homes is something we also can not tolerate. We do not agree to this and our voices must be heard.
