comment for planning application wscc/off/21	
Application number	WSCC/011/21
Name	Oving Parish Council
Address	CHURCH WAY, 4, CHURCH WAY, BOGNOR REGIS, PO21 4QN
Type of Comment	Objection
Comments	Oving Parish Council would like it noted that they are against this application. The visual impact of the excessive height of the chimney will have a detrimental effect over a huge area including the parish of Oving, the medieval town of Arundel and all local villages settled in the South Downs National Park, all of which are home to grade one and grade two listed buildings. Oving Parish Council would also like to voice its concerns regarding the effect this development will have on the local roads which are not suitable for the excessive increase in HGV vehicle movements that will be inevitable with a development of this nature - more information is required regarding the plans to manage the movement of waste to and from the site and that of service vehicles associated with the site.
