Comn	nent for planning application WSCC/011/21
Application number	WSCC/011/21
Name	sabel Thurston
Address	Rose Cottage, Yapton Road Barnham
Type of Comment	Objection
Comments	This is the wrong location for such a facility, even if you think there is a need for it. The new design is ugly and inappropriate for a rural area and the building will be visible for many miles around, causing unacceptable visual impact. There are currently houses nearby and many more are planned. This will have a detrimental effect on the quality of life and health of residents. Incineration is not the best form of green energy production as it produces harmful emissions and carbon dioxide, which is counter productive. My belief is that having a facility like this in Arun will result in more waste being brought in from other areas, increasing road traffic, and this will also encourage the burning of more waste and materials that could be recycled in other ways. Please West Sussex CC, address the recycling and disposal of waste by working to create a circular economy with waste designed out. This is a lazy option.
