Comn	nent for planning application WSCC/011/21
Application number	WSCC/011/21
Name	John and Maria Emly
Address	5 OTMERS QUAY, FITZALAN ROAD, FITZALAN ROAD, ARUNDEL, BN18 9JS
Type of Comment	Objection
Comments	We object in the strongest possible terms to this application, as we did to the earlier application. Given the height and size of the proposed rubbish incinerator plant it would be a monstrous eyesore and a dominant blot on the landscape and visible for miles around. It would not only destroy the natural beauty of a vast area of the surrounding countryside but would adversely impact the whole countryside character of a huge area. Whatever claims might be made to the contrary the proposed incinerator plant, together with the vastly increased traffic flow, would generate air pollution and a stench over a wide area constituting a serious health hazard to the community, especially school children. The infrastructure of the area for miles around is totally unsuited and inadequate to accommodate safely the hugely increased traffic flow, and in particular the HGV movements to and from the site. For the benefit and future health of current and future generations, we implore you to reject this application.
