Comment for planning application WSCC/011/21

Application number	WSCC/011/21
Name	Mattis Declas
Address	TORTON HILL ROAD, 38, TORTON HILL ROAD, ARUNDEL, BN18 9HL
Type of Comment	Objection
Comments	The 13 story high building will be able to be seen as far away as Chichester and will affect the South Downs National Park grade 1 listed buildings ancient monuments and sites of special scientific interest. The size of this incinerator is ginormous! It will be near primary and secondary schools and is not compatible with the new houses that are being built. There is no local need for more incinerators and they do actually harm recycling. West Sussex already has enough incineration sites and it is a barrier to the circular economy i.e. recycling. Incineration is actually one of the worst ways of generating energy because of its affect on climate change. Emissions include ultrafine particulate matter including dioxins Nox And can be both harmful to human health and natural environment. There doesn't appear to be enough enforcement, transparency or monitoring! If we were to have this gigantic incinerator which really is such a huge huge enormous building (which does not fit into such a beautiful environment)The local roads will then have to cope with huge amounts of big lorries and these local roads including Ford Road cannot cope with the size and weight of the HGV movements being proposed, please please reconsider and do not allow this, let's face it horrible, ugly, potentially very dangerous to our health incinerator!
