Comments	NO LOCAL NEED FOR MORE INCINERATORS & THEY HARM RECYCLING West Sussex already has enough Incineration sites with permission to meet its needs. Incineration is a barrier to the cycle of recycling. NOT GREEN ENERGY - HARMS AIR QUALITY Incineration is one of the worst ways of generating energy cause of its effect on Climate Change. Emissions include dioxins. NOx and ultrafine particulate matter that can be harmful to both human health and the natural environment. There is not enough monitoring, not enough accountability.
