Comments	As a resident of 20 years in yapton the current building of houses Is drastically changing the landscape and quietness that I moved here forI fully understand and appreciate the need for The Incinerator to exist somewhere but surely there are other options for location? The extra lorries for this site on the surrounding roads,in addition to the huge amount of cars that will arrive when the new houses are filled, will be unacceptable. There are already problems with the amount of traffic at nearby junctions and families walking to the shops or school will be at risk from pollution and/or accidents. Surely this Building should be on a more industrial site with main road access. Not plonked in the middle of a rural village?
